NON-BINDING MEMORANDUM OF UNDERSTANDING (MoU)

for Voluntary Collaboration and Testing of the Bifrost Bridge

Date: April 20, 2026

Parties:

1. Bifrost Bridge Project
   (hereinafter referred to as “Bifrost”),
   represented by Matteo Coppola, CEO at FluidTokens

   and

2. EASY1 Pool
   operating the Cardano stake pool EASY1
   (hereinafter referred to as the “SPO”),
   represented by Giovanni Gargiulo

Recitals

WHEREAS, Bifrost is developing a bridge (the “Bridge”) that enables secure and efficient interoperability between the Bitcoin and Cardano blockchains;

WHEREAS, the SPO is an experienced operator of a Cardano stake pool and possesses valuable operational knowledge of the Cardano network, its infrastructure, and ecosystem;

WHEREAS, both parties wish to collaborate on a purely voluntary and informal basis so that the SPO may provide feedback and participate in the testing of selected Bridge components;

WHEREAS, the parties desire to record their mutual good will and intent to collaborate through this non-binding Memorandum of Understanding, which creates no legal, financial, or contractual obligations whatsoever;

NOW, THEREFORE, the parties acknowledge and agree as follows:

1. **Purpose**
The sole purpose of this MoU is to express the parties’ good-faith intention to work together voluntarily. Specifically, the SPO may, at its complete discretion:

- Review technical documentation and design materials related to the Bifrost Bridge;
- Participate in testing activities (e.g., testnet deployments, integration checks, performance observations, or security reviews) on the Cardano side;

- Provide constructive feedback, suggestions, and observations to help improve the Bridge.

Participation in any activity is entirely optional and may be stopped or paused by the SPO at any time without notice or penalty.

2. **Voluntary and Non-Binding Nature**
This MoU is a statement of intent only and is expressly non-binding. Nothing in this document:

- creates any legal, equitable, or contractual obligation;
- obligates the SPO (or Bifrost) to perform any work, testing, or feedback;
- imposes any liability, financial responsibility, or consequence of any kind on either party;
- constitutes a partnership, joint venture, or agency relationship.

The SPO's signature serves solely as a public demonstration of good will and support for the Bifrost project's testing efforts. No adverse consequences arise from signing or from later choosing not to participate.

3. **Term**
This MoU becomes effective on the date of the last signature below and shall continue until terminated by either party upon written notice to the other. Termination has no effect on any prior voluntary activities already completed.

4. **General Provisions**
- No Confidentiality Obligation: Unless a separate written confidentiality agreement is executed, no information exchanged under this MoU is required to be kept confidential.
- Entire Understanding: This document contains the entire understanding of the parties regarding the subject matter and supersedes all prior discussions.
- Counterparts: This MoU may be signed in counterparts, each of which shall be deemed an original.

IN WITNESS WHEREOF, the parties have executed this Non-Binding Memorandum of Understanding as of the date first written above.
